

Issue Report

Site quality report for
<http://exhibition.sidora.si.edu/fedora/repository/si:2757621?&time=1472480623>
produced on Monday, August 29, 2016.

Category	Results	
Overall Quality		1 pages with quality issues
Accessibility		1 pages with accessibility problems
Totals	1 pages and images checked	

Accessibility

This section shows accessibility issues, indicating problems for older users, people with disabilities and those with accessibility needs.

WCAG 2 Priority A - Issues found (disabled users will find it impossible to use some pages)

3 issues on 1 pages

Priority URL / Description

-  This element uses JavaScript to behave like a link. Links like this cannot be tabbed to from the keyboard and are not read out when screen readers list the links on a page.

Use an A or AREA element with the link target in the HREF or a target like HREF='#'. An A or AREA element without an HREF cannot receive keyboard focus.

Guideline: [WCAG 2.0 A F42](#)

-  Ensure that foreground and background colors have enough contrast.

Some users find it hard to read light gray text on a white background, dark gray text on a black background and white text on a red background.

- The contrast ratio should be 3.0 or more for 18 point text, or larger
- The contrast ratio should be 3.0 or more for 14 point bold text, or larger
- The contrast ratio should be 4.5 or more for all other text

The foreground/background contrast ratio is 1 with 8.4 point text.

267 286

Guideline: [WCAG 2.0 AA 1.4.3](#)

-  If you set any of the colors on the BODY or A elements you must set all of them.

In HTML the color attributes are TEXT, BGCOLOR, LINK, ALINK and VLINK. In CSS the attributes are COLOR and BACKGROUND-COLOR. Some users have browser defaults set to white text on a black background, so setting one color without setting the others can result in black text on a black background.
